GIARDINETTO - LAGO D'ORTA

Bartender Special

WHAT A BARTENDER SHOULD DO?

Surprise, innovate, close your eyes to open your mind to inspiration and creativity that takes shape and color right up to the edge. Border, point of contact, through emotions that the mixing artist outlines and shapes at will as a fluid and sinuous Sculpture. The scents and colors are captured by those who find a work of art in their hands. The sensations come together and combine, the beat accelerates because the heart quivers in fervent expectation to be able to receive, by touching the edge, all the artistic nuances placed inside the glass.

WHO IS THE BARMAN?

Much more than a profession, the professional figure of the bartender is a mix of disciplines that must be deepened, known. Talent, friendliness, continuous study, of mixing techniques, languages, bar economics. All this to always offer a quality service that makes the Barman a professional.

"Demanding absolute knowledge is something monstrous.
Knowledge is an adventure without boundaries of uncertainty."

Frank Herbert [1920 -1986] American writer

"All ideas that have enormous consequences are always simple ideas"

Lev Nikolaevic Tolstoj [1828 -1910] Russian writer
